[redacted] assured me that the Latvians were well aware of Dr. Masens' effective ACEN work, and were indeed proud of him in this regard. It was intended in any case that Dr. Masens would remain as Chairman of the Latvian Delegation to the ACEN so that he would be able to continue his important role there. 186

I told [redacted] that I did not know anything about the details of the operations of the Latvian National Committee and did not regard it as appropriate for me to express any views with respect to it, but I could not fail to reiterate that any action which might diminish Dr. Masens' effectiveness in the ACEN would be most unfortunate in my opinion.
